## 1/100 ARCHITECTURAL MODEL ACCESSORIES SERIES No.10 Street Tree

Good news for designing office staff who pull off all-nighters!! It's a street tree version, the tenth shot of the Architectural Model series, which you can easily assemble simply by tearing off the precut parts. 4 street trees inspired by zelkova are included. The leaves and branches are separated in parts, and the sense of the season can be created. The simple modeling, which omits fine details, is also highly versatile and complements the sense of scale.

Including : Street trees, bench, crow,  
little birds, dogs, cats, bicycles and so on.
