1/100 ARCHITECTURAL MODEL ACCESSORIES SERIES No.14 PALEOZOIC・Silurian-Carboniferous Vertabrates, from ocean to land

Good news for design office staff who pull off all-nighters!! PALEOZOIC, the 14th installment of the pre-cut Architectural Model Series has arrived. Simply detach and assemble. Extinct animals from the Silurian-Carboniferous periods have been chosen by precise geological age and recreated in 1/100 scale under supervision by researchers. Compare with other items from the 1/100 scale ACCESSORIES series to illustrate the size of these extinct animals, and be awed by the scale of time.
